

Are you an **Autistic youth or young adult** with experience of **Avoidant/Restrictive Food Intake Disorder (ARFID)** or **severe picky eating**?

We are seeking participants for a study exploring the experiences of Autistic youth and young adults with ARFID and ARFID treatment.

What does the study involve?

We are asking participants to complete a short survey and then participate in a virtual interview (60-90 minutes). The interview will focus on your experiences with ARFID/severe picky eating and your experiences with treatment. Participants will be compensated for their time and expertise.

Who can participate?

You may be eligible if you:

- Are a 15- 24-year-old living in Canada
- Have a formal diagnosis of Autism without intellectual disability
- Have experienced or are currently experiencing ARFID or severe picky eating
- Have accessed treatment for ARFID or severe picky eating before age 18
- Can communicate comfortably in English and have access to stable internet
- Are able to participate independently in a virtual interview
